

5 Simple Steps

To Your Beautiful New Home

Our Easy Customisation Process

The first rule is there are no rules. We can customise any part of our homes to best suit your lifestyle and your taste. We're very flexible. But we also understand that with so much choice, building can be daunting as well. So we have developed our unique Easy Customisation process to help you get started, by selecting how you would like certain zones of your new home to be laid out. With these larger elements in place, we can then set about tailoring the smaller elements to suit. It means a simpler, clearer and easier process for the customer.

1. Choose

With over 30 plans available, Hearty Homes gives you a choice of sizes, designs and styles to suit any family and any budget. With three distinct ranges, we'll help you find the perfect option to assist you, to then select the plan that best suits your needs.

2. Modify

At Hearty Homes we've developed a unique interchange range of plans. Our plans make modification easy – simply choose from a choice of elements for each zone and you're done. Want to change a plan further, or have an idea of your own? Done. Talk to our team, we're excited to help you create your dream home.

3. Approve

We'll finalise your plan and with all the elements and amendments you're requested, factor in any sub-floor costs and provide a final plan with a firm final price to build. You then simply approve us to commence, we'll organise all the permits and permissions required to get your new home underway.

4. Build

The excitement of seeing your home appear, from the first site scrape through to frame, lock-up and completion. You'll be kept up to speed with all the details along the way, and kept thoroughly informed and involved as your brand new home comes to life.

5. Live

Turn the key and start living in your new home, with your brand new appliances and features. Enjoy modern benefits like 6 Star Energy Rating, efficient central heating, a brand new kitchen and even perhaps the envy of your friends in your unique and beautiful Hearty Home.
